As well as the class-contact time for the delivery of modules, there are also 10 meetings with a spiritual director spread throughout the year and arranged between you and your spiritual director (we have a list of recognised directors), and three meetings in triads (groups of 3) in the first and second semesters which are arranged by the members of the triads. We will provide you with assistance in choosing a spiritual director and in forming the triads. Please allow time, also, for meetings by appointment

with the module leader of the spiritual direction process module to review how the process is going. Time also needs to be allowed for the likelihood of interviewing a small sample of people to gather data for your research dissertation. While the classes finish in May, assignments continue until the end of July.

**Dr Michael O'Sullivan,
MA Programme Leader
